Client

Prebuilt Pty Ltd

SCOPE OF WORKS

Partnered with PreBuilt to deliver comprehensive plumbing and drainage services for four new kindergartens under the VSBA KOSS Program across Echuca, Kerang, Mildura, and Whitfield. Safely executed all phases of work within live, operational school environments.

Works included:

- Completed plumbing rough-in and fit-off for modular buildings, coordinating works across both factory and on-site environments.
- Installed site inground water, sewer, and civil drainage infrastructure, including commercial septic systems.
- Executed all necessary water authority connections and tap-ins.
- Delivered complete firewater systems, including tanks, pumps, mains, and hydrants.
- Completed specialized Water Authority works in Echuca, encompassing the construction of a new maintenance hole and localised sewer branch modifications.
